- Influenza A&B testing.
- Specialty testing such as, but not limited to pathology, allergy testing, Genova, etc.
- Prescription medications, supplements, or medications are dispensed in-house. We attempt to obtain sample medications for patients, but we cannot guarantee that these medications will be available continuously.
- Immunizations. We have partnered with a local Pharmacist who will take Reform ABQ patients and provide them with their immunization needs at an additional fee. You can also obtain immunizations at the local Department of Health or other pharmacies such as Walgreens, CVS, etc.
- Imaging (x-rays, MRI, US, etc.) we have partnered with local centers that accept self-pay patients. If a member has insurance coverage and would prefer, we will provide a prescription, and the patient can utilize the imaging center covered by their insurance carrier.
- We will not serve as a pain management service for patients. We will, however, refer to pain management and manage all other chronic conditions.
- Reform ABQ providers will not serve as your attending provider during hospitalization. Still, we will coordinate care and provide notes, labs, medication lists, etc., to the hospital attending to ensure a smooth transition of care.
- Does not include additional fees for specialist care such as cardiology, urology, physical therapy, etc.
- Does not include the price for Vitamin Injection(s), IV therapy, etc. These fees are separate from the membership fees listed above.
